FOR OUR PRODUCTS TO BE PERFECT WE NEED ONLY YOU

LABOR VIVA: WORK WELL DONE

The essential difference between Labor Viva and other companies is that all our work is carried out entirely by people with disabilities.

With a great deal of dedication and even more professionalism, we do everything, from beginning to end.

Design, printing, cutting, creating the hard cover, and binding.

Our products are created with virtually handcrafted care, because we have one clear goal: **work well done.**

We have a wide range of stationery that can be personalized according to the needs of our customers.

As we take meticulous care over every aspect of the creation of our designs, we have decided to launch a new range **"made in Labor Viva"**, in order to showcase our work.

A DESIGN FOR EVERY NEED

DESIGN YOUR PRODUCT IN 3D

In our desire to create a truly unique product we have taken a further step and, using the latest technology, we offer our customers the opportunity to make their own custom designs.

It is easy. You only have to enter our web page and download the 3D editing programme.

You will be able to see your design in 3D realism.

This application is available for 2015 diaries in any language and in a wide range of formats.
