

OLCINA GROUP TRADING CO, S.L.

Tax ID Number: B73159931

OLCINA was founded in 1878 in Lorca (Murcia) Spain. From the local tradition was born the Olcina specification in the manufacture of Drums and Paddles for the tanning of hides and skins. To face the new technological and environmental challenges that require, to standardize and rationalize production and reduce the environmental impact of the tanning process. OLCINA offers the most advanced process automation and filtering systems. The offer of Olcina's Engineering allows to approach from the partial remodeling of a Tannery to a Turnkey Project.

Commercial Director

Sector: Leather, hide and footwear machinery

Activity: Exporter, Manufacturer, Marketer

Turnover: Non-available

Brands: CANGILONES, OLCINA GROUP, SYSTEM-DOSING, SYSTEM-MATIC, SYSTEM-MIX, SYSTEM-PROCESS

Export Volume: Non-available

Manufacturing Process

In our manufacturing process, we manufacture, assemble and check all our parts in the factory before dismantling and packing, so we can guarantee our quality from the first day of operation of the machine

Key Differentiating Features

Unlike other manufacturers of machinery for tanning, we do the check both in the factory assembly and in the disassembly, which allows us to adjust to the maximum and with maximum reliability our components

Products

VULCAN / ECO-LOGIC Drum for Soaking, Liming & Tanning

Tanning automation systems, drums, mills, etc

Código Taric: 845310

TARIC Denomination: Machinery for preparing, tanning or working hides, skins or leather (excl. drying machines, spray guns, machines for the dehairing of pigs, sewing machines and general purpose presses)

"CANGILONES 3G" high performance drums for Soaking, Liming, Tanning, Retanning, Dyeing

Tanning automation systems, drums, mills, etc

Código Taric: 845310

TARIC Denomination: Machinery for preparing, tanning or working hides, skins or leather (excl. drying machines, spray guns, machines for the dehairing of pigs, sewing machines and general purpose presses)

Products

Abatanar and condition Turbo MILL drum provides perfect results on the skin, providing them with touch and the smoothness required at each time for each type of articles

Tanning automation systems, drums, mills, etc

Código Taric: 845310

TARIC Denomination: Machinery for preparing, tanning or working hides, skins or leather (excl. drying machines, spray guns, machines for the dehairing of pigs, sewing machines and general purpose presses)

ECO LOGIC TURBO Drum for perfect, homogeneous tinctures even for skins of large surface and thin thickness

Tanning automation systems, drums, mills, etc

Código Taric: 845310

TARIC Denomination: Machinery for preparing, tanning or working hides, skins or leather (excl. drying machines, spray guns, machines for the dehairing of pigs, sewing machines and general purpose presses)

"CANGILONES 3G" high performance drums for Soaking, Liming, Tanning, Retanning and Dyeing
Tanning automation systems, drums, mills, etc

Código Taric: 845310

TARIC Denomination: Machinery for preparing, tanning or working hides, skins or leather (excl. drying machines, spray guns, machines for the dehairing of pigs, sewing machines and general purpose presses)

Desalting drum

Tanning automation systems, drums, mills, etc

Código Taric: 845310

TARIC Denomination: Machinery for preparing, tanning or working hides, skins or leather (excl. drying machines, spray guns, machines for the dehairing of pigs, sewing machines and general purpose presses)
