Export Department

Sector: Furniture

Activity: Exporter, Manufacturer

Brands: CASUAL

Export Countries: Austria, Belgium, France, Germany, Mexico, Peru, Portugal, The Netherlands

Manufacturing Process

In our factory we produce dinning tables, coffe tables, chairs, stools, armchairs, sofas, sofa beds, headbords and auxiliary items, in general all that is needed in a hotel. Our business is based on the provision of furnitures stores medium-highend and the equipment and installation of hotels and apartments. You may consult one of our many references.

We work with fabrics from Italy, Belgium and Spain. Most are flame retardant fabrics and water-repellent designed specifically for use in hotels. All our fabrics meet the British Standards. In the manufacture of furniture we also work with special equipment (high pressure laminate smooth or textured) which are resistant to wear and not get scratched, and that guarantee the durability of the furniture and return on investment. The quality of the materials resembles wood, retaining the grain and texture of wood. Of course we work with natural woods too.
