

HORTAMED, S.L.

Tax ID Number: B30516876

Hortamed S.L is an experienced Spanish society that began its existence because of the great experience and tradition of a founding family that was and is strongly bonded both to the Mediterranean garden and the field of manually-processed vegetables. Thanks to their vision and perseverance, this entity's history has been one of overcoming adversity and filled with confidence in its future.

Since 1996, and with the artichoke as our main product, this family decided to jump into the food-processing and canning industries. This decision turned out into a story of success, earned through the joint effort of women and men that worked hard in order to achieve a compromise with quality, respect for the best tradition and the use of the main techniques in order to achieve the preservation of our products' freshness.

Thus, Hortamed started as a company with a strong commitment to quality, offering only great products obtained from the best raw materials. This quality was quickly and widely recognized by other food industries and commercial agents, which began to buy (in Spain) and import (abroad) semifinished products.

Many of these commercial relationships have accompanied us for more than 15 years until this day. We consider this as a sign of recognition for the skill, care and professionalism with which we serve great products.

Having nearly reached Hortamed's 20th anniversary, our company has spent years producing canned products in order to be able to reach the Europeans homes with a natural and second-to-none savor. A new and different way to feel and taste everyday's flavors: those of artichokes and, more recently, tomato sauce and pulses (chick peas and white beans).

Address

Calle Orilla del Azarbe s/nBjo
30149 Santomera
Murcia (Spain)
