Manufacturing Process

Given our extensive experience in this sector, in Hidroconta we acknowledge that a product should be adapted to meet the customer's needs. We, therefore, continuously research and consequently add new features to our products in order to obtain maximum water employment, whilst dealing with all types of installations/equipment.

The versatility of our products enables us to offer tailored solutions ranking from simple domestic meters to complex hydraulic control equipment utilized by large agricultural plants. We also offer a full range of interchangeable products together with various accessories, which allow the complete adaptation of all the differing products to

Key Differentiating Features

Para lograr un producto final que sea competitivo y satisfaga las expectativas del cliente más exigente, verificamos cada proceso en nuestro Banco de Pruebas, que garantiza la calidad que vendemos.

Este banco se compone de un sistema de recirculación de agua, diseño propio, que evita su derroche, cuatro bombas y cuatro contadores eléctricos para registrar todo tipo de medidas de forma fiable, y un sistema de sensores de temperatura, humedad, presión y captación de pulsos para que toda la información quede informatizada de manera automática, evitando cualquier error humano.

Más exactitud y rapidez para garantizar un producto perfecto.

suit the particular needs of each customer always going hand in hand with the guarantee of maximum control.

Products

Valve
Irrigation valves for farming technology
Código Taric: 84811019
TARIC Denomination: Pressure-reducing valves of cast iron or steel (not combined with filters or lubricators)

The resource of this report item is not reachable.

Código Taric: 84859080
TARIC Denomination: Machinery parts of chapter 84, not intended for a specific purpose, n.e.s.

Electromagnetic flowmeter
Irrigation accessories
Código Taric: 90261059
TARIC Denomination: Electronic instruments and apparatus for measuring or checking the flow or level of liquids (excl. for civil aircraft, flow meters, meters and regulators)

The resource of this report item is not reachable.

Código Taric: 90282000
TARIC Denomination: Liquid meters, incl. calibrating meters therefor

Hidraulic water meters
Irrigation accessories
Código Taric: 90282000
TARIC Denomination: Liquid meters, incl. calibrating meters therefor

The resource of this report item is not reachable.

Código Taric: 903281
TARIC Denomination: Hydraulic or pneumatic regulating or controlling instruments and apparatus (excl. manostats and taps, cocks and valves of heading 8481)

Automatic control valve
Irrigation valves for farming technology
Código Taric: 90328110
TARIC Denomination: Hydraulic or pneumatic regulating or controlling instruments and apparatus, for civil aircraft (excl. manostats and taps, cocks and valves of heading 8481)

The resource of this report item is not reachable.

Código Taric: 903290
TARIC Denomination: Parts and accessories for regulating or controlling instruments and apparatus, n.e.s.
