

MURGACA, S.A.

Tax ID Number: A30633762

MURGACA, Inc was founded in 1988. Since then it has been mainly dedicated to manufacturing ovine meat, as it has greatly evolved in volume, quality and distribution. This has all been possible due to its professional, efficient and responsible personnel. A few years ago, the firm made a commitment to an "all natural" project, which involved implementing a quality management system to trace products through all production phases. Production is submitted to strict technical and health controls, supported by the firm's application of ISO 9002.
