

## QUÍMICA DEL ESTRONCIO, S.A.

Tax ID Number: A13173398

This company was founded in the year 2000 to work in Strontium Carbonate from the mineral Celestine, Strontium Sulphate, developing the company's own technology. This innovative process has an added value of extraction of two other solutions: Ammonium Nitrate and Ammonium Sulphate, which are used as fertilizers. Offices are strategically located in the Valley of Escombreras, an industrial area situated near the commercial harbor which is a communication point to several destinations by sea. The bulk of production is exported to Japan, India, Southeast Asia, the U.S.A., South Africa and England. Production capacity reaches 35,000 tons/year in Strontium Carbonate, accounting for 10% of world production and 6,000 tons/year of Strontium Nitrate, making it the first European factory in this compound's production.
