

CLAVEL ARQUITECTOS ASOCIADOS, S.L.P

Tax ID Number: B73001703

With offices in Spain, Miami and Dubai and projects from China to the USA, Clavel Arquitectos are specialized in singular projects that are technically viable and also meet with economic, social, environmental and administrative requirements. Clients, neighbors, customers... all are closely linked to the design process from the start and their diversity is considered in the design process and when searching for solutions to the proposed objectives.

To do so, we have a strong multidisciplinary team made up of architects, engineers, biologists and interior designers, all of whom are indispensable due to the diverse and complex projects they deal with.

From projects of millions of Euros to small interior design projects, we select our projects not for their size or budget but for the potential they have in creating a better city and happier citizens. Their projects have received more than 80 awards; have appeared in more than 100 national and international publications and have received thousands of references in the media.

Projects like the Museum Garage in Miami for LMVH group, a building made with golden and silver cars, have become a major touristic attraction and a new icon for the city.
