

102 NOVADOC S.L.

NOVADOC

Tax ID Number: B30785992

In 102 Novadoc We are committed to the development of new technologies that we apply to different sectors. We specialize in the integration of radio frequency systems (RFID) for libraries, archives and document management. We also perform digitalization services, zonal recognition (OCR), and software development and applications for mobile and web. 102 Novadoc successfully implements RFID technology in other sectors, such as: logistics, access control in events (congresses, conferences, etc.) or sports competitions (marathons, races, etc.), health, shops, hospitality, etc.

Creation of metadata for conservation and diffusion in Premis, METS, DUBLIN CORE, MODS, MARC21, EDM, ESE.

We also perform digitalization services, zonal recognition (OCR), software development and applications for mobile and web.
