

## AQUAPORINS & INGREDIENTS, S.L.

AQUAPORINS&INGREDIENTS

Tax ID Number: B73640971

Created as a spin-off from Consejo Superior de Investigaciones Científicas (CSIC), the purpose of Aquaporins & Ingredients S.L. is to deliver innovative, leading edge concepts and tools that can drive competitive advantage for agricultural SMEs. Focussing on sustainable development and new technologies in agri-food products, Aquaporins & Ingredients S.L. is the brainchild of four scientists and was created to encourage technology-transfer between companies and world-class research institutions, based on scientific know-how and R&D skills in plant biotechnology, phytochemistry and food technology for human health.

The company offers a collaborative bridge between enterprise and the scientific research community that can deliver innovative, practical business opportunities, based on sound, validated scientific results.

There are two main areas of focus in which the main goal is to offer a wide range of products from a pipeline of scientifically certified and quality assured products:

**Agri-food:** Dedicated to the production and marketing of ingredients for formulations with applications in food and health. The objective of this area is to design and obtain innovative foods and ingredients for maintaining or improve consumers' health through diet. The main goal is to get healthy foods rich in phytochemicals and formulating ingredients that can be incorporated into new foods and products.

**Cosmetic:** Dedicated to the production and marketing of ingredients for formulations with applications in cosmetic and therapeutic. This area aims mainly the development, production and marketing of aquaporins. In the cells of all living organisms are aquaporins, integral membrane proteins that function in transport of water, which makes them a high potential of applicability in certain industrial sectors.
