

ALTERNATIVAS ENERGÉTICAS DE MURCIA, S.L.

Tax ID Number: B30370571

At AEM, S.L., we manufacture diesel generator sets, from 3 to 2,000 kVA (until 500 Kva in price list), using the most important brands in industrial engines, in standard version, soundproof, or mobile. We produce as well, any other type of special execution of the machine or customized machines. Also, we can state that our delivery time is the shortest in the market, among all the manufacturers and distributors in Spain.

Sector: Other types of equipment and capital assets

Activity: Exporter, Manufacturer

Turnover: From 6,000,000 to 12,000,000 euros

Employees: From 20 to 49

Brands: AM

Export Volume: From 1,200,000 to 3,000,000 euros

Export Countries: Algeria, France, Portugal

Products

Generating sets. Mobile series
Generators and generator components
Código Taric: 850212

TARIC Denomination: Generating sets with compression-ignition internal combustion piston engine "diesel or semi-diesel engines" of an output > 75 kva but <= 375 kva

Generating sets. Soundproofed series
Generators and generator components
Código Taric: 850212

TARIC Denomination: Generating sets with compression-ignition internal combustion piston engine "diesel or semi-diesel engines" of an output > 75 kva but <= 375 kva

Generating sets. Standard series
Generators and generator components
Código Taric: 850212

TARIC Denomination: Generating sets with compression-ignition internal combustion piston engine "diesel or semi-diesel engines" of an output > 75 kva but <= 375 kva
