

TRANSPORTES MARCIAL, S.L.

MARCIAL GREEN

Tax ID Number: B30149397

Transport of goods, mainly perishable goods at controlled temperatures.

We are a logistics company with over twenty years' experience, specializing in the cold supply chain (either groupages or full-load trucks).

We focus on the transport of fruits, vegetables and 4th. range produce destined for both Spain and Europe, and cold storage facilities prior to delivery in the country of destination. We favour innovation and technical advances that give an added value to our clients such as homologated thermographs and various monitoring probes for real-time information on air flow temperature in the cargo compartment, switching on and off the refrigerator, or automatic opening of back doors; this gives our clients global traceability of products during transport so they know at any time where and how their load is being handled.

Our philosophy is quality and innovation by way of our personalized services. Many years experience in the market together with technological innovation and ongoing training of our personnel make efficiency and professionalism our main features which help us stand out from our competitors.
