NUTRICONTROL, S.L.

Tax ID Number: B30344725

Nutricontrol is a company dedicated to the research and technological development. Since our consolidation as a company in 1992, we have dedicated to the analysis, design, manufacture and marketing of control equipment for the automation of the irrigation and climate in greenhouses and outdoor irrigation facilities.

Our main goal is to get farmers to get the most out of their crops with minimal staff effort. For this reason, our work is based on the analysis and development of software and hardware specific to the control of irrigation, fertigation and climatic variables both inside of greenhouses and outside them.
