### Manufacturing Process

In our elaboration process we still follow the ancient recipe from our family, using the best products from our region, but also using the modern technology that allows the agility in the elaboration process. This way, we can reach every home as soon as possible and in a wider way.

### Key Differentiating Features

What makes us different is the fact that we are NOT an assembly line. Each order is personal and different, all our products are made for each order. This way, we can warranty that we deliver fresh products. For us, that means working a little more, but we have a very good organized and effective working process, so that our cupcakes and sponge cakes could be always best quality products and our clients and customers could be always satisfied.
