ELECTRÓNICA RAYA

Tax ID Number: 26180435H

Since early 1990, Raya Electronics is developing technological applications in the industrial and Naval, manufacturing and automation control equipment.

Throughout all this time, the demand for labor and services ordered by consumers and businesses has allowed us to grow and position ourselves in other levels. Thanks to them, today, our company is present in different geographical areas of Spain, although we are also interested in contact with other countries to establish agreements. We continue to work with other companies for marketing and distribution of their products and are open to further negotiations that could result in an increase to meet any customer need.
