

DERIVADOS QUÍMICOS, S.A.

Tax ID Number: A30117865

Company located in Alcantarilla (Murcia) and established in 1987. In 1990 it began to manufacture intermediate pharmaceutical products and active ingredients for the world pharmaceutical market. Currently, the company has three production plants, modern laboratories for Research and Development and Quality Control and Assurance, in addition to a Regenerative Thermal Oxidizer (RTO), a facility that applies the most avant-garde technique today to reduce emissions of volatile organic compounds, indicated to treat solvents and processes eliminating any environmental impact. Its policy is based on three fundamental concepts: safety, quality and the environment, which have allowed this company, over the years, to have a human team made up of more than one hundred and fifty specialized in the sector workers and achieve a sales figure of more than 30 million euros per year. The production activities of this company have official certifications such as ISO 9001 Quality, ISO 14001 Environmental, ISO 45001 Safety Certificate (formerly OSHAS 18000) and the GMP Certificate of Good Manufacture Practices of fine chemicals. This company remains consolidated as the absolute leader not only in Spain, but also in the rest of the world (it exports 95% of its production), forming part of the international group OLON, SPA, based in Italy.
