EXCELENCIA EN IMPLEMENTACIÓN Y DESARROLLO, S.L.U.

EXIDES
Tax ID Number: B30790018

Exides was born in 2005 with a strong industrial culture due to the difficulties to find, in the Region of Murcia, agile and dynamic companies with extensive experience in this highly specialized sector.

Covering that need meant starting a business project with a deep knowledge of the market in which it should move, totally focused on the client and with a commitment to permanent innovation in our technologies so that we could create high quality solutions in terms of time and with reasonable costs.

Since then, professionals with extensive experience in the different sectors in which we develop our activity are part of this project called EXIDES.

EXIDES develops its activity, mainly, in four differentiated business areas:
Information Technology
Development and implementation of computer applications
Management software in local area network
Cloud management software
Software for mobile devices
Software for Web environments
Third-party usability improvement software
Desktop, Web or mobile systems, interconnected to ERP and / or external CMMS that improve the usability of these, such as: SAP, Windchill, EMPAC, etc.
Support of own computer applications

Address

Travesía Gabriela Mistral s/nEXIDES
30300 Cartagena
Murcia (Spain)
