

INNOVACIONES TÉCNICAS AGRÍCOLAS, S.L.

INTA

Tax ID Number: B46472007

This firm is located in Aguilas, Murcia, where it develops and manufactures fertirrigation and climate control equipment. Through years of experience and collaboration between electronic and information technicians, the company is able to offer a unique product to farmers. The firm has extensive experience in managing different crops. Initially, the company distributed products from northern Europe. Nowadays, the firm's agricultural experience is combined with innovative technology from northern Europe, and this is true for the entire team. The corporate aim is to offer farmers solutions to grow better, more profitable crops using the most appropriate and safest processes. Selling one of their products is not only a matter of providing quality equipment, but also making sure customers know how to use the machines properly and are familiar with all applications and uses.
