

JUAN ROMERA TIERRA DE ALFAR, S.L.

Tax ID Number: B30452569

Juan Romera Sánchez was born in 1940 in ¿Las Canales,¿ a neighborhood in the town of Aledo which is known for its long history of pottery-making. Juan comes from a family which has always worked in pottery, and he has never worked in any other field since the day his father began teaching him the family trade. Traditionally, the only pottery made in this neighborhood was refractory mud pieces which were used in the kitchen. Juan Romera created these products and distributed his work by traveling salesmen around the region. After a few difficult years, and with the help of his wife, Juan Romera has been able to expand upon his success as a potter and continue the tradition as a family business where his five sons also work to distribute and export their creations.
