ROVIMAT, S.A.

Tax ID Number: A30151971

ROVIMAT, S.A. was established in 1988. Since then we have acquired a great deal of experience in the manufacture of shower floors, sinks, baths and basins in synthetic porcelain using the latest technology. This has resulted in products with high resistance to temperature change, acids and knocks. The raw materials used are fibre glass, resins and various minerals. We have recently started penetrating new markets such as Saudi Arabia and Portugal, maintaining the quality and service for which we are known.
