DAMIAN CANOVAS

Tax ID Number: 23254461N

The origin of this company dates back to the nineteenth century, where the craftsmanship was a must. It was designed to meet the basic needs of the population, and specialised in the manufacture of jars.

By the mid-century, their manufacture dropped due to fall into disuse the utensils for domestic use, therefore as a result they began to be manufactured parts and pottery for the garden.

By the 1840, the pottery was designed to meet the basic needs of the population.

A family business which for generations has been passed from father to son until the present time. Damian Canovas proudly continues with determination and pride this craftsman work.

The artisanal manufacture of hand made ceramic parts, along with the experience and expertise of our staff, has remained unchanged over the years in the crafting process, from design to modeling clay.

The greatest satisfaction and motivation to continue manufacturing our products, is that every day more people are interested in them.
