MT HELMETS

Tax ID Number: A30608798

MANUFACTURAS TOMÁS, S.A., was established in 1978, although we have been producing our articles, intended for the two-wheel's world, for 53 years. At the present, we are specialized in the manufacture of SAFETY HELMETS FOR MOTORCYCLISTS, approved by the European regulations currently in force (ECE-22.05).

Helmets are manufactured by a thermoplastic resin injection process, which has a high resistance to impact. We also carry out a strict monitoring of quality at our own laboratory.

Quality / price relation, in these helmets, has a positive acceptance all over Europe, mainly in Germany, Holland and France.

We offer a wide range of models: INTEGRAL, MODULAR, JET.

Every year, we exhibit our latest models in several international fairs (INTERMOT, Munich-Germany, EICMA, Milano-Italy, MOTORSHOW, Barcelona-Spain).
