CTIcontrol is an engineering company with more than 18 years of experience in the design, manufacturing and distribution of climatic controllers for farms and projects for required technology development.

Our staff is made up for a rich variety of professionals from the farming sector and engineering sector such as computer, industry, telecommunications, and electronic engineering. Therefore we are able to develop new and user-friendly controllers for each type of farm.

The recognition of a brand is built with the confidence of its customers. The good results of CTIcontrol are shared by customers from the five continents who constantly trust us to achieve with our controllers: solutions, durability and maximum profit in their farms.
